

To Our Friends, Valued Customers and Suppliers:

As a supplier in the automotive supply chain, Titan has been deemed an essential business by the State of Washington and we have continued with uninterrupted service in support of our customers.

While most of our office employees continue to work remotely, our warehouse has remained fully operational for receiving and order shipment. Please note that there may be occasional supply chain delays resulting in slightly longer response or processing times during these unique circumstances. Should we anticipate any significant issues, a member of the Titan team will contact you if you have an order or project that will be impacted. Your business is important to us and we are available to respond to your calls and questions.

Our primary concern is for the safety and well-being of our employees and our community. Please continue to follow recommended protocols and stay safe and healthy.
